

Mahmoud Bakri AbdelSamea Ahmed

Software Testing Engineer

Nasr City - Cairo – Egypt | Date of Birth: January 1st, 1999 | Military Status: Completed
+20106786158 | mahmoudbakri225@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Objective

Detail-oriented Software Test Engineer with 1 year of hands-on experience in manual testing, test execution, and bug tracking across web applications. Adept at designing clear test cases from requirement specifications, executing regression and functional test suites, and collaborating with developers to accelerate bug resolution. Strong foundation in the SDLC/STLC, decision table testing, and API testing basics.

Experience

Digital Egypt Pioneers Initiative (DEPI) | Ministry of Communications and Information Technology (MCIT) [July, 2026 - Present]

Software Testing Engineer Trainee

Executed end-to-end software testing processes following ISTQB (v4.0) standards across the entire Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).

- Authored detailed test scenarios, test cases, and requirement traceability matrices using test design techniques including Boundary Value Analysis and Decision Table Testing.
- Conducted static testing and managed defects using Jira, accurately tracking bug lifecycles from detection through verification and resolution.
- Performed API testing and web UI inspection using Postman and Selenium to ensure cross-browser compatibility, backend data integrity, and system performance.
- Managed testing activities within Agile/Scrum environments, managing test data via SQL databases and utilizing Prompt Engineering techniques to streamline testing documentation.
- Developed and presented a comprehensive Capstone Project, executing hands-on functional, integration, and regression testing suites.

Skills

Technical Skills

- **Programming Languages:** Java, C#, ASP.NET, ASP.NET Core, MVC, Entity Framework, LINQ, RESTful APIs.
- **Web Development:** HTML5, CSS3.
- **Testing Standards & Frameworks:** ISTQB v4.0 Standards, SDLC/STLC Integration, Agile/Scrum Testing.
- **Tools & Automation:** Jira, Postman, Selenium, Chrome DevTools.
- **Tech & Databases:** SQL Database Testing, Relational Queries, Java, AI Prompt Engineering.
- **Testing Types:** Manual, Functional, Regression, Integration, API.
- **Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, SOLID Principles, Design Patterns.
- **Tools:** Git.

Interpersonal Skills

- Effective Communication, Team Collaboration, Time Management, Self-Learning, Problem Solving.

Projects

- **Al-Sharkia COVID-19 Interactive Map & Advisory System — Graduation Project** [Source Code](#)
 - Expert system that detects and diagnoses COVID-19 symptoms and recommends the nearest hospital based on patient location. Awarded 1st Place in the Information Systems Department Graduation Projects Competition. Grade: Excellent.

- **Movies Platform** [Source Code](#)

- Full-stack movie browsing application built with C# and ASP.NET Core. Features user authentication, category filtering, search functionality, and responsive UI. Demonstrates backend integration, database design, and frontend implementation.

- **CleanCheck**

- Java-based code quality analysis tool that scans Java projects, applies registered clean-code rules, reports code quality issues in the console, and generates an HTML report for review and analysis.

- **Student Management System** [Source Code](#)

- Console-based Java application for managing students, instructors, courses, enrollments, and grades. Supports adding, editing, deleting, and listing records, course enrollment, grade recording, and student GPA calculation through an interactive menu.

Education

Bachelor's Degree, Computers and Information Systems Faculty of Computers and Information (FCI), Zagazig University . **Grade: Very Good With Honour** [Aug, 2017 - Aug, 2021]

Courses & Certificates

- Backend .NET Development - EraaSoft
- Backend .NET Development - Algoriza
- Java Development — DEPI
- C# Mastering Course — Udemy
- The Complete Microsoft SQL Server Course: From A to Z — Udemy
- Programming for Everybody (Python) – Coursera
- Java Object-Oriented Programming – Udemy
- The Web Front End Learning Guide — Udemy

Language Skills

- Arabic: Native
- English: Very Good
